

Chromebook How To's

Apps and Extensions on the Chromebooks

Some apps are automatically installed due to need.

Those that are not installed can be found in the app store and installed by the students as needed.

To access the app store, simply google, chrome store and from the results select the google chrome app store.

The search bar is at the top of the store screen.

Only school approved apps can be installed.

If you have a request for an app to be available to students, please send them through your building principal.

This is a list of available apps:

- Alarm clock
- Audiotools
- Caret
- Coding with Chrome
- Duolingo
